

STATUS: Brainstorming

Vape Battery Reuse

Reusing a vape battery and it's controller.

Items Needed

- Disassembled vape
- 28 guage wire
- USB input module

Instructions

- Wire the USB input module to U+/U- terminals
- Ensure battery is still connected on B+/B- terminals
- ~~remove the pressure sensor and do something else here~~ *this is likely the controller*
- connect the H+/H- terminals to your device
- profit?
